GALES OF WIND AND COLD SWEEP COUNTRY

Trains Are Stopped, Towns Are Isolated and Big Fires Fanned Into Fury.

CHICAGO, Jan. 30.—The storm of sleet, snow and rain, which sped along by a high wind during the last twenty-four hours, has prostrated telegraph and telephone wires, stalled trains, wrecked buildings and isolated whole communities, struck Chicago to-night and was reported central in the vicinity of Detroit.

The first bite of the storm was felt in Chicago at noon and it continued to increase in fury as the hours passed. The wind blew forty miles an hour and the thermometer registered a drop of over twenty degrees to ten above zero. The day was one long fight by the telegraph and railroad companies to restore wires and rescue stalled trains.

No freight trains are running to-night in the storm belt in Iowa and few in Wisconsin and Minnesota. The Chicago, Milwaukee and St. Paul railroad reported practicaly all its wires down. On the Minnesota division, two trains are probably stuck in the storm in South Dakota.

On Degree Below Zero.

ST. PAUL, Minn., Jan. 30.—An old time blizzard raged in the Northwest to-day. Telegraph communication with the East was almost wholly destroyed.

Owing to the high wind and increasing cold which at 2 o'clock was one degree below zero, the public schools closed.

Blows a Policeman Over.

ST. LOUIS, MO., Jan. 30.—Robert MacCormick, the oldest member of the police force, was blown from the fifteen-foot high porch of his house, and probably hurt to-day. Points through Missouri reported severe storms of wind and snow.

Nearly Mile a Minute.

LITTLE ROCK, ARK., Jan. 30.—Exceptionally high winds pased over Arkansas to-day, reaching a velocity at times of fifty-six miles an hour. Many buildings in the city were unroofed. A delivery wagon was blown off the bridge over the Arkansas river.

Chickens to Roost.

AUGUSTA, Jan. 30.—Augusta did not have much of a wind storm this morning, but it had a bad fright. Shortly after 8 o'clock heavy clouds came out of the Southwest and in a few minutes it was almost as dark as night. Lights were lit in the houses, chickens went to roost, the birds sought their nests in the trees and houses were hastily shuttered. Excitable persons were greatly alarmed.

The skies took on a greenish hue and the clouds began to whirl angrily far overhead. The observer at the Weather Bureau says Augusta had a narrow escape as the windstorm, which was intense, passed over the city. At one time people in the eastern part of the city heard a roaring noise that greatly added to their alarm.

The maximum velocity recorded officially was 13 miles per hour. Later in the day the sun came out and fitful gusts blew until nightfall. No damage has been reported.

58-Mile Gale.

ATLANTA, Jan. 30.—Only twice in the weather history of Atlanta has the wind raged at a higher velocity than yesterday.

Late last night it was blowing a hurricane through the streets and making music around the tops of skyscrapers. So violent did it become early last night that several windows were broken at the Piedmont Hotel.

The temperature is dropping and wintry conditions returning. The weather forecaster has promised almost, if not quite, freezing weather before morning. No casualties have yet been reported. The Western Union has been greatly handicapped by wire troubles.

Gale Fans Fire That Burns a Home.

AMERICUS, Ga., Jan. 30.—The handsome Lee street residence of Mrs. Henry R. Johnson was practically destroyed this afternoon by fire which for an hour baffled efforts of the fire department.

The blaze originated in the roof, and fanned by a gale threatened the destruction of other buildings in the residence section of Americus. Two others were in imminent danger, but were saved by hard effort.

Furniture and some effects were removed from the Johnson residence. There was insurance of $4,500, which only partially covers the loss.

Four-Mile Wall of Fire Advances.

MOBILE, Ala., Jan. 30.—The sawmill plant of the Alabama Lumber Company, three miles north of the city, was totally destroyed by fire this afternoon, entailing a loss of $75,000 on the plant and $15,000 on lumber, with no insurance.

Fanned by a westerly gale blowing thirty-five miles an hour, there is a solid wall of fire advancing eastward across the marshes, four miles wide, endangering the homes of many truck gardeners.

BODY HORRIBLY MANGLED BY TRAIN

BLACKSHEAR, Ga., Jan. 30.—Wilbur P. Goodwin, telegraph operator at Offerman, met a tragic death at the 89-mile post near here early yesterday morning. It is supposed Goodwin attempted to board a passenger train in order to escape the clutches of the law and in some way fell under the wheels.

His body was horribly mangled and the appearance of the neck at first led to the suspicion that his throat had been cut and the body thrown on the track, but after careful investigation the coroner's jury decided that his death was due to his efforts to board a rapidly moving train.

A few days ago Goodwin went hunting, it is said, while in an intoxicated condition and for some fancied affront drew his pistol and threatened to shoot a woman of the neighborhood. A warrant was sworn out for his arrest on this account and Thursday night Sheriff Tuten went to Offerman and arrested him. The sheriff returned with his prisoner and carried him to jail. Goodwin asked the sheriff not to lock him in a cell, saying that he would give bond next morning and would give no trouble. The sheriff consented and put his prisoner to bed in his office.

During the night the sheriff's wife was aroused by a noise and called to her husband, who quickly arose and hurried to his office to find his prisoner gone. After leaving jail Goodwin evidently walked to the 89-mile post, two miles west of here, where there is a siding and water tank, and there attempted to board the train which killed him.

His watch was found in his pocket, and it had stopped at 4:43, which indicated that the train scheduled to pass that point at 4:45, killed him. His body has been embalmed by a local undertaker and will be shipped to his old home near Covington, Va.

MICANOPY NOTES.

(By J. D. Watkins.)

MICANOPY, Fla., Jan. 30.—The John H. Sparks Show Company gave two performances here Monday afternoon and at night. There was a good crowd present at each performance. They left here for Lake Butler.

Miss Nellie Reeves spent a few days recently visiting Mrs. J. W. Chamberlin of Tacoma.

Dr. Wallace and wife of Youngstown, Ohio, are stopping at the Tuscawilla Hotel for a few days.

Mrs. Sue D. Feaster invited a few of her friends to a fish fry on Tuscawilla Lake. As usual, when Mrs. Feaster is hostess, all had a good time.

Three charming young ladies are visiting Mrs. J. B. Simonton for a few days—Miss Maggie Simmons and Miss Helen Poor of Maitland, and Miss Eunice Ives of Orlando. They make a jolly party wherever they go.

Andrew Smith of Archer spent a few days here visiting home folks.

Miss Martel Smith of Wacahoota visited Miss Dora May Chitty for a few days.

Miss Abernathy of Jacksonville is visiting Miss Mabel McCredie.

Dr. L. Montgomery has returned from a professional visit to Jacksonville.

The Southern Shows are billed for Micanopy February 8th. They will be here for one week and are going to give a certain per cent of the gross receipts to the high school of this place. They have with them the Armstrong family, who have been here before. The Armstrongs always pleased their audience.

Mr. Ford, wife and daughter, Miss Lucy, are visiting Mrs. Sue Feaster for a few weeks.

Mrs. W. C. Johnson has returned home from a visit to relatives at St. Petersburg.

Mrs. J. C. Mathers and daughter, Mrs. H. H. Simpson, went to High Springs Tuesday. Mrs. M. P. Summers, daughter of Mrs. Mathers, is quite ill. We hope they found her better.

Micanopy can now supply the cabbage growers with crates. W. D. Bobbitt and the Melton Lumber Company are both sawing crates. If nothing happens there will be a big demand for crates soon, as there is a large cabbage crop this year.

The Southern Bell Telephone Company has a farmers' line running to Wacahoota connected with the exchange here.

BIBLE CONFERENCE AWAKENING INTEREST

Bishop Morrison Giving Valuable Service to the Meeting---Large Crowds Despite Weather.

From Sunday's Daily Sun:

Notwithstanding the fall of the temperature and the high, gusty winds, which made the conditions rather unfavorable Saturday, the exercises at the Florida Winter Bible Conference, morning, afternoon and night, were well attended, and those who were present felt well repaid for being there. It was a glorious day for the cause, and it seemed that those who had the determination to face the weather conditions felt greatly rewarded for their efforts in behalf of a more moral and refined condition from a Christian standpoint.

Mr. Guille, who is conducting the Bible study in the morning, was at his best upon this occasion, and what he had to say was received with the deepest interest. Mr. Guille is possessed of the proper spiritualistic power, and his work here has proven wonderful in the development of the Christian mind from all sources. He is a Bible scholar of the old class, and has every paragraph properly translated to the modern mind.

For the first time in the six years that the Bible Conference has been in existence the services of Rev. Samuel M. Smith, D. D., pastor of the First Presbyterian church of Columbia, S. C., have been secured. Dr. Smith is one of the most gifted divines of the South, and he opened a series of three sermons in the evening. Dr. Smith proved highly interesting to the good audience who listened to him, and it is safe to say that he will be welcomed here during his series, which will end with a vote of thanks by the Christian workers of the Conference and the community.

The afternoon service was full of interest, and was largely attended, considering the adverse weather conditions. Many of the ladies left their domestic duties behind to take advantage of the opportunity to hear Bishop Morrison, of the Methodist Episcopal Church, South, who delivered a most eloquent discourse on "The Ministry of Suffering." Bishop Morrison has always been regarded as one of the most eloquent divines in the South, and his work has been greatly appreciated and highly effective wherever he has consented to preach. He is a man possessed of the highest intellect, full of spiritual power, and never fails to make an impression. His sermon at the opening of the Conference was a masterpiece, and the patrons of the Conference feel grateful that he has consented, at a great inconvenience to himself and his official duties, to return for the next two or three days. While Bishop Morrison is deep, he is at the same time interesting, and what he has to say goes down in the hearts of deep-thinking people.

The program for today will be as follows:

Preaching at 3 p. m. by Rev. Dr. S. M. Smith; preaching at 7:30 by Bishop H. C. Morrison.

A special feature of each meeting will be the song service, conducted by Messrs. Hall and Mack.

The feature of Monday evening's program will be the song service which will be conducted under direction of Profs. Hall and Mack of Philadelphia. They are among the leaders in their profession, which is an assurance that the Bible Conference is receiving the best service in that line in the conuntry. These gentlemen are assisted by a choir of more than half a hundred voices, composed of the best vocal talent in this section of the country.

Happily Married.

Judge J. A. Carlisle was called upon Saturday night and performed the ceremony which made Mr. Chas. Prevatt and Miss Rhoda Gatlin man and wife.

The event occurred at the bride's home and was witnessed by a large number of friends. Both have resided here for some time and have a large number of friends who wish them happiness along their married life.

Freezing Weather Looked For in This Section Today

From Sunday's Daily Sun:

All of Saturday the truckers of Gainesville and vicinity were busy preparing for the expected cold wave which is scheduled to arrive this morning, and many predicted that the thermometer would reach as low as 20 degrees at this place.

The cabbage that were headed were cut Saturday, also all outdoor lettuce, and many of the farmers covered all their cabbage in the event the cold would prove as severe as predicted.

A terrific storm is raging in the Western States, and in some places the trains are blocked, but the fact that the cold wind is right from there assures us of some very bad weather here.

News received from Washington by the Coast Line officials was to the effect that the cold would reach as far South as the 26th paralell, which is two degrees below Tampa, and the message further stated that it would probably frost along th Gulf Coast as far South as Jupiter. All agents along their lines were instructed to notify the growers.

In talking with many of the leading growers here Saturday they all contended that the peach crop would be destroyed, besides the cabbage crop would be completely wiped out, but this is only a matter of supposition and the exact damage cannot be ascertained until after the cold has passed and the sun has time to thaw out the vegetables, which will be Monday at the earliest, as some seem to think the weather will be more severe on Sunday night.

Sea Island Cotton Firm With Hardening Tendency

SAVANNAH, Ga., Jan. 30.—The market nas been firm with a hardening tendency in the high grades, the demand increasing as the week progressed. Large business has resulted, and at the close factors' tables were pretty well swept, except of the three lower grades, which were not in request. The demand was slack for everything under full extra choice, prices being easier for extra choice and below. Full choice was quoted at 15c.

The report of the Census Bureau on the ginning up to January 16 showed a total of 90,456 bales; distributed by States as follows:

Florida	34,607
South Carolina	13,205

Sales for the week were 2,343 bales.

The following prices are based on factor's quotations and are revised weekly on Fridays:

MORE IMPROVEMENTS ARE CONTEMPLATED

OLD OAK HALL TO BE REMODELED AND ENLARGED.

Eight More Rooms to Be Added to This Historic Old Landmark at Early Date.

The old Oak Hall building now situated at the foot of East Main street is to be remodeled and added to at an early date.

It is understood that B. F. Hampton, the owner, has decided to add eight more rooms to the building and move it to a point fronting on Magnolia street.

The house when completed will be used either as a boarding-house or rooming apartments, and work will probably be commenced at an early date on these proposed changes.

L. M. McCormick is also contemplating making additions to his large house, corner East Main and Magnolia streets.

Mrs. B. B. McCaa.

TALLAHASSEE, Jan. 26.—Mrs. Helen Augusta McCaa was born in Houstoun, Florida, August 7, 1870. Her parents, David Lang, colonel of Eighth Florida Confederate regiment, and Mary Cambell Lang moved to Tallahassee about the year 1885. It was here their daughter was married to Mr. Buswell Boykin McCaa. Mr. and Mrs. McCay lived in Tallahassee until about ten years ago when they moved to Jacksonville and from there to Portsmouth, Va., in which city Mrs. McCaa passed away on Saturday, the 23d inst., after an illness of twelve days.

Mrs. McCaa always remembered her girlhood home with deep affection. It was here that there came to her the crowning joys of her young womanhood, also the most paoignant griefs. Her beloved mother lay in God's acre at the foot of one of Tallahassee's old clay hills, and beside her two little ones that for a few brief months had brought to the young wife the glory of motherhood. Here were hosts of friends and familiar scenes never forgotten, never faded into distant memories, but loved, longed for and sorely missed, and so, when she had laid aside the pleasures and pains of life, loving thought planned to bring her home again, and loving hands laid her where she would have wished to lie.

Small in body but large in soul, brave, gentle and loving, her cheery disposition and charity of thought to all men, made for her friends, admiring and sincere, wherever she went, and many were the hearts in this city that were saddened when the news came that she had passed on into the great beyond.

The burial services were read in St. John's Episcopal church—the church in which she had been married and into which she had brought her children for baptism. The casket was loaded with flowers, the last tribute of loving friends, and they who bore her were friends of her youth grown to manhood. Her husband and father, brother and friends stood near until nothing was left but a flower-covered mound and a memory fragrant with the order of the sanctity of a life well spent, and of an example left for the glorious inheritance of her children. A young son and two little daughters survive to be their bereaved father's and grandfather's comfort and hope.

Besides Mr. McCaa and Col. Lang there were present at the burial relatives and friends who had come up from other parts of the State. These were: Mr. Campbell Lang of Old Town, Mrs. Henry C. Denton of Gainesville, Mr. T. M. Cox, Mr. and Mrs. Daniel, Mr. and Mrs. Louis S. Peck, Mrs. F. A. Gibbons, Mr Christopher Matheson and Mr. J. H. Burroughs of Jacksonville.

The pall bearers were: Messrs. John Henderson, James Randolph, A. H. Williams, B. C. Whitfield, George Perkins, Charles Monroe, Joseph A. Edmondson, Dr. H. E. Palmer and Dr. E. M. Brevard.

Foley's Honey and Tar clears the air passages, stops the irritation in the throat, soothes the inflamed membranes, and the most obstinate cough disappears. Sore and inflamed lungs are healed and strengthened, and the cold is expelled from the system. Refuse any but the genuine in the yellow package. J. W. McCollum & Co.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind discourages and lessens ambition; beauty vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle

MELROSE NEWS.

(By Observer.)

MELROSE, Jan. 28.—Right Rev. E. G. Weed, assisted by Rev. C. B. Hedrick, held services at Trinity church on Sunday. Two large and appreciative congregations listened to the most excellent sermons preached by the Bishop. During the offertories Mr. and Mrs. A. E. Pearsall rendered "The Lord is My Light," by Allison, and "Praise Ye the Lord," by Vordi. The church was beautifully decorated. During his visit the Bishop was the guest of Mr. and Mrs. J. A. Remmel.

Attention is called to the Masonic supper at the Huffman House at 6:30 p. m., on February 5th. The public is cordially invited.

The martins arrived on January 21, about ten days earlier than last year.

The wooden drains on Belamy avenue, near the postoffice, and on Pearl street, are being replaced by clay tiling. A much needed improvement.

Service will be held at 11 a. m. on January 31st at the Lutheran church.

Newly registered at the Huffman House are Mr. and Mrs. F. K. Black of Boston, Mass.

Miss M. McLaine of Coreopolis, Pa., is the guest of Mr. and Mrs. J. A. Waters.

C. R. Kluger, the jeweler, 1060 Virginia avenue, Indianapolis, Ind., writes: "I was so weak from kidney trouble that I could hardly walk a hundred feet. Four bottles of Foley's Kidney Remedy cleared my complexion, cured my backache and the irregularities disappeared, and I can now attend to business every day, and recommend Foley's Kidney Remedy to all sufferers, as it cured me after the doctors and other remedies had failed." J. W. McCollum & Co.

NEW OFFICERS ELECTED.

Change in the Head of the Alachua County Abstract Company.

At a regular annual meeting of the Alachua County Abstract Company new officers were elected for the ensuing year as follows: B. R. Colson, president: J. W. Blanding, vice-president, and R. C. Bowers, secretary-treasurer.

The stock of P. M. Colson was purchased by his brother, B. R. Colson, who now holds the office of president of the company.

This is one of the largest abstract companies in the State.

Hexamethylenetetramine.

The above is the name of a German chemical, which is one of the many valuable ingredients of Foley's Kidney Remedy. Hexamethylenetetramine is recognized by the medical text books and authorities as a uric acid solvent and antiseptic for the urine. Take Foley's Kidney Remedy as soon as you notice any irregularities, and avoid a serious malady. J. W. McCollum & Co.

ATTRACTIVE EXHIBIT FROM UNIVERISTY

SOLID CAR LOAD TO LEAVE FOR THE TAMPA FAIR.

Wonderful Exhibit From the Blacksmith Department Under Supervision of M. W. Smith.

Another car has been added to the exhibit gotten up by Major J. W. Tench which will do much toward procuring prizes at the coming State Fair. This is the car that has been gotten up at the University and reflects great credit upon those who participated in its preparation.

While, of course, the agricultural interests are taken care of to a large extent, the products of the boys constitute a most important part of the car. It is an exhibit from the blacksmith department and shows the product from the steel bar to its finish, and something over one hundred articles have been manufactured to show just what can be done.

The exhibit from the shop consists of chisels, square, round, diamond-pointed and scoop, all being made from diamond point bar steel; steel boiler tube welding, hammers galore, bits, crow bars, nail bars, drawing knives, moulders' tools, screw drivers, chains, sockets, anchors, and in fact a general make-up from a blacksmith shop where they know how to do these things, and the fact that they were all hand-forged from cold-rolled steel is further evidence of the efficiency of the work.

Very few of the articles have been finished with the emery wheel, but show the products in their rough state to demonstrate how clever the students are at present in doing their work.

Under the able instruction of Mr. Smith the tools are of the best that could be made, and while he has no senior students he has allowed some of the juniors to finish a few of the articles to show what a neat and handsome appearance the finished product makes.

One of the neatest trinkets here shown is an ice pick, which will more than likely be taken up with the ladies, as in its finished state it is not only "cute" and very serviceable, but represents some highly nickled plated article.

Considering that the time for making this exhibit has been very limited, the University will make a most excellent showing.

Reason Enthroned.

Because meats are so tasty they are consumed in great excess. This leads to stomach troubles, biliousness and constipation. Revise your diet, let reason and not a pampered appetite control, then take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be well again. Try it. For sale at all druggists'. LAMB ENTHUSIASTIC OVER TROLLEY LINE

SAYS THAT WORK WILL COMMENCE WITHIN SIXTY DAYS.

He Personally Knows That the Two-Million-Dollar Bond Issue Has Been Floated.

From Friday's Daily Sun:

"The proposed trolley line from Gainesville to Lake City via Worthington Springs is an assured thing,' so declared I. F. Lamb of the latter-place to a Sun reporter Thursday.

He stated that there was not any further doubt about the matter, for he personally knew that the mammoth bond issue of two million dollars had been successfully launched, and work would commence on the buildings and daming of the plant within the next sixty days.

He says that sufficient power will be secured to furnish power to operate all the factories and trolley lines that the company would build for some time to come, and that their first venture would be to branch out for this city.

Realizing that it would prove a big thing for Worthington, he has made arrangements to meet the demands and is already enlarging and making many needed preparations and improvements in his hotel property there, and besides is having another larger and more commodious bathing pool built which will be used as a combination pool, while the old one will be used exclusively by the ladies and children.

A large auction sale of lots will occur there next Wednesday, and he has made arrangements to give a dance at his popular hotel on Tuesday night preceding the sale, having secured fine music for the occasion.

He is a "live one" and says that the people of Worthington are also alive to the situation, as everyone there is endeavoring to make the place the representative community that it should be.

COAST LINE WRECK.

Five Box Cars Were Derailed at Worthington Springs.

Freight train No. 218 on the Atlantic Coast Line happened to an accident on Thursday which effectively blocked the track for several hours and passenger train No. 40 from St. Petersburg was run around via Palatka to Jacksonville.

No accidents were reported to anyone, and further than the deraNing of five freight cars nothing else happened, and the wreck will be cleared away to allow the regular trains to pass that way by today.

The wreck occurred at Worthington Springs.

Six Nights "Go as You Please" Race.

How many tired fathers and mothers in this town enter this race every night carrying a baby? And they wonder what the matter is. Chances are the child is starving—worms are eating all of its food. Most children have worms—yours needn't. White's Cream Vermifuge will get rid of the worms and strengthen the child. Price 25 cents per bottle. Sold by W. M. Johnson.

The Mayor's Court.

From Friday's Daily Sun:

In Mayor's court yesterday Peter Shakespeare was fined $25 and costs for stabbing Zal Tousey recently. The latter was fined $5 and costs for fighting.

Worn Out.

That's the way you feel about the lungs when you have a hacking cough. It's foolishness to let it go on and trust to luck to get over it, when Ballard's Horehound Syrup will stop the cough and heal the lungs. Price 25c, 50c and $1.00 per bottle. Sold by W. M. Johnson.

KEEP THE KIDNEYS WELL

Health is Worth Saving, and Some Gainesville People Know How to Save It.

Many Gainesville people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when all diseases and aches and pains due to weak kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills. Here is a Gainesville citizen's recommendation:

Mrs. E. H. Walters, 108 N. Oak avenue, Gainesvillefi Fla., says: "My kidneys were disordered for some time and I could find nothing that would relieve me. I suffered greatly from headaches and was often so dizzy that I could not stand. Seeing Doan's Kidney Pills advertised, I procured a box and began their use. They acted quickly and it was not long before I received relief. I have no hesitation in giving Doan's Kidneny Pills my endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

WILL OPEN BUSINESS BY FEBRUARY 15

BUILDING NEARING COMPLETION FOR WHOLESALE GROCERY.

Owing to Central Location Firm Will Likely Do an Extensive Business With Retailers.

The Hartsfield Grocery Company will be ready to open their new wholesale business here about February 15th.

This company, who have been a long while in this particular line, come from Moultrie, Ga., and being men thoroughly experienced in the line they are to follow, it is expected that they will do a tremendous business out of this section, owing to the central location. In fact, there is nothing but the freight rate that will interfere with them doing a leading business in this section, which was for many years handled here by other wholesale concerns, but who were finally compelled to remove to Jacksonville.

The building to be occupied is now nearing completion and the finishings are being placed to the building, so the new firm will be ready to open up not later than the 15th of February.

For the present the company will have two local representatives to represent them here and on the road, and a good business is anticipated by the new firm.

OWENS GOES TO JAIL ON CHARGE OF MURDER

SEVERAL WITNESSES EXAMINED AT PRELIMINARY THURSDAY.

Bond Denied Man Who Has Tried to Kill Others While He Had His Freedom.

From Friday's Daily Sun.

R. H. Owens, the man who killed Smith and Musslewhite at Jonesville on Tuesday morning, was given a preliminary hearing before Justice Ira J. Carter at Newberry on Thursday and sent to jail without bail on the charge of murder.

Evidence introduced at the hearing was such that there was no other course to pursue, and the man will now be required to spend his time in prison until the next term of circuit court, when the grand jury will take up the case for hearing.

Owens is very unconcerned about the shooting and still claims that he acted in self-defense in killing Musslewhite, and maintains he was protecting his wife when he shot Smith. He feels confident that he will come clear at the final hearing.

The State's interests were looked after by Judge Syd L. Carter, who went over to Newberry in the absence of Attorney Rivers.

Many Sleepless Nights, Owing to a Persistent Cough—Relief Found at Last.

"For several winters past my wife has been troubled with a most persistent and disagreeable cough, which invariably extended over a period of several weeks and caused her many sleepless nights," writes Will J. Hayner, editor of The Burley (Col.) Bulletin. "Various remedies were tried each year, with no beneficial results. In November last the cough again put in an appearance and my wife, acting on the suggestion of a friend, purchased a bottle of Chamberlain's Cough Remedy. The result was, indeed, marvelous. After three doses the cough entirely disappeared and has not manifested itself since." This remedy is for sale by all druggists.

DEATH OF G. H. ZETROUER.

Passed Away at His Home Near Rochelle on Friday.

From Saturday's Daily Sun:

News was received in the city Friday evening of the death of Mr. G. H. Zetrouer of Rochelle, who died at his home near that place from an attack of pneumonia, having been ill only a short while.

The deceased was a young man of about 35 years of age and one of the most successful planters of that section, as well as a large cattle owner, and followed this vocation up to the time of his death.

He leaves a wife, one young son, a mother and three brothers to mourn his demise, two of whom reside in this city.

The funeral will occur today at the home and the remains will be laid to rest in Oak Ridge cemetery.

Ask Yourself the Question.

Why not use Chamberlain's Liniment when you have rheumatism? We feel sure that the result will be prompt and satisfactory. It has cured others, why not you? Try it. It costs but a trifle. Price, 25 cents; large size, 50 cents. For sale by all druggists.

MORE PROHI. BILLS.

NASHVILLE, Tenn., Jan. 29.—In the Upper House of the Legislature yesterday a bill was introduced to require sheriffs to secure from the federal revenue officials a list of all persons to whom federal liquor licenses have been issued.

Another bill was introduced providing for a commission to assess the value of all property, the use of which, it is alleged, will be damaged by the State-wide prohibition bills.

In the House a bill was introduced making it unlawful to advertise in any form, intoxicants in this State.

BREAKING OF ROPE SAVED NEGRO'S LIFE

Angry Mob Preparing to Hang Suspected Brute Second Time On Officer's Arrival.

JACKSONVILLE, Fla., Jan. 29.—A brutal attempt was made to assault Mrs. Jesse Holland, a respected white woman, by a negro brute Wednesday afternoon shortly after 5 o'clock. The attack occurred near Panama Park on the shell road.

The brute who attempted to assault Mrs. Holland, and who would probably have been successful had he not been frightened away by the appearance of a negro woman by the name of English, made good his escape and although the Jones brothers, deputy sheriffs, spent Wednesday night in the woods near where the attack occurred, no trace of him has yet been found.

Mrs. Holland was alone in the house at the time the negro made his appearance, but her three little children were playing in the front yard. The children saw the man, a tall black negro, walk into the yard and go around the house to the back door. They were terribly frightened and ran into the house to inform their mother of what had happened.

Forced Open Door.

Mrs. Holland immediately closed the rear door and locked it. The negro demanded that he be admitted but was refused. He then forced the door open and immediately attacked Mrs. Holland, grabbing her by the throat and informing her that if she cried for help that he would kill her.

The frightened woman, with the children, screamed at the top of their voices and the negro, evidently fearing that he would be caught, released his hold and left the house. Mrs. Holland then rushed out of the front door and headed for the shell road, about 100 feet from her house, and before she reached the road she was again seized by the negro and thrown to the ground. Her clothing was torn almost from her by the big brute and her body was considerably bruised.

She continued screaming and her cries were heard by an old negro woman by the name of English, who has long resided near the Holland home and the negress came rushing to the assistance of the white woman. She brought with her several other negroes and the brute, who saw them approaching, ran off into the woods.

Several people were shortly on the scene, among them the telegraph operator from Panama station. A posse was quickly formed, being composed of both white and colored men, and a thorough search of the surrounding woods was made.

The negro was tracked into the quarters near Cummer's mill, but after that all traces of him was lost.

Sheriff Bowden has offered a personal reward of $25 for any information that will lead to the arrest of the guilty party. The negroes in the neighborhood where the brutal attack occurred are as deeply stirred up over the matter as the white people, and they have promised to lend every effort towards capturing the man. It will be remembered that a similar case occurred a short while ago near the Phoenix Park car line, and althogh an arrest in connection with that case has been made many are of the opinion that the fiend who attempted to assault Mrs. Holland Wednesday afternoon, is the same who attempted the assault upon another respected white woman a short while ago.

Almost Lynching.

As a result of the attack made on Mrs. Holland a lynching was narrowly averted Thursday night. Only the prompt arrival of Deputy Sheriff Ellis prevented the determined men from carrying out their plans.

A large posse, composed of men from the Cummer mill settlement and Panama Park, were scouring the woods in hopes of finding the man. They found a negro who gave his name as Ben Austin.

The actions of the negro were rather suspicious and he was carried before Mrs. Holland for identification. Mrs. Holland stated that he was the wrong negro, as ne was not wearing the same kind of overalls worn by the man who had attacked her.

The negro told the posse that he could prove by his boss that he was working when the attempt at assault was made. He was then carried back to the Cummer settlement and his boss located.

The man for whom he worked stated that the negro had knocked off from his work shortly before 5 o'clock. This looked suspicious to the posse and Austin was carried back to Mrs. Holland for the purpose of having her take another look at him.

At this time she identified the man, partially, and he was then hustled off into the woods by the excited mob, evidently for the purpose of a lynching.

Used Telegraph Wire.

The men found a long piece of telegraph wire and this they used in place of a rope. The noose was adjusted and placed around Austin's neck and he was pulled into the air.

One of the posse, a man who had taken part in the search the previous night, and who felt confident that Austin was the wrong man, rushed off into the darkness and sought Deputy Sheriff Ellis. He found the officer and told him what was happening and Ellis drove rapidly to the scene of the lynching

When the officer arrived he found Austin lying on the ground in an unconscious condition. The wire had broken, which caused the negro to fall to the ground.

When Ellis arrived the men were repairing the wire and were about to string the negro up again. The officer immediately became the master of the situation and ordered the men to leave the scene. He then placed the negro in his buggy and drove rapidly to the county jail.

Sheriff Bowden, who was already working on the case, went to the county jail and questioned Austin very closely and immediately left for Panama Park to make a further investigation.

The negro told him places that he had been Wednesday night and the sheriff went to those places for the purpose of ascertaining if Austin was telling the truth.

TRIED BY JURY AND FOUND NOT GUILTY

C. C. STRICKLAND ACQUITTED OF CHARGE OF LARCENY.

Large Number of Hague Citizens Were Present to Testify in the Case Saturday.

From Sunday's Daily Sun:

Nearly the whole of Saturday was taken up by Judge Mason in trying the case of the State vs. C. C. Strickland, the charge being larceny, preferred by J. S. Stafford, a merchant of Hague.

Fully a dozen or more witnesses were present here in the case, but as all of the testimony was about the same, only four were examined, which occupied the attention of the court the greater part of the day.

Stafford claimed that Strickland had stole a $5 note from him, but from the evidence the jury thought otherwise and returned a verdict of "not guilty," after being out only a short while.

E. K. Fagan, A. O. Steenburg, J. H. Vidal, J. W. Alsop, H. M. Chitty and W. M. Bradford composed the jury in the case. The prominence of the parties involved drew quite a large crowd of on-lookers.

It was claimed that Mr. Strickland had picked up the money from the floor in the rear of Stafford's store some time in September, but the charge was not preferred until more than two months later.

Strickland refused all overtures for a compromise and went to trial confident of being vindicated, and the verdict shows that his confidence was not misplaced. Certainly a more representative body of men could not have been selected to try the case.

For Marshal.

To the Voters of the City of Gainesville:

I am a candidate for City Marshal, for re-election on April 13. I have served the people faithfully and efficiently, night and day, and my record is open for inspection.

If my service during the past year has been satisfactory I ask the support and vote of each and every citizen who is qualified. I can only promise the same service as I have endeavored to give in the past.

Yours for order,
BEN T. ARNOW.

MARRIED IN HASTE.

A Remarkable Wedding on a Fast Moving Railway Train.

HIGH SPRINGS, Jan. 29.—At an early hour last Saturday morning D. M. Davidson, accompanied by Rev. G. L. Yeates, boarded the Jacksonville train at Burnett's Lake. When reaching Dukes, a few miles distant, Miss Emma Pinkerson boarded the train When the train got under full headway Mr. Davidson and Miss Pinkerson lined up and Rev. Yeates soon made them man and wife. On reaching the next station, Lake Butler, Rev. Yeates returned, the happy couple proceeding on to Jacksonville and other points on their honeymoon. Because of its romance it was a surprise to their many friends. The groom, Mr. D. M. Davidson, is a popular and progressive merchant, and the bride is a lovely and valued daughter of one of Bradford's most prosperous farmers. After a short bridal trip they will be at home to their many friends at the Troy Hotel in this place.

For City Marshal.

I respectfully announce myself a candidate for the office of City Marshal, to be voted for at the election on April 13, 1909. If elected I will faithfully discharge the duties of the office without fear or favor. I respectfully solicit the votes of all, irrespective of party affiliation.

DO YOU NEED GLASSES ? ? ? ?

It pays to do things in time and this is especially important where eyes are concerned.

Many eye troubles that might be only temporary and which could be cured by wearing glasses for a time, are, by neglect, allowed to become permanent. The eyes are thus injured for good and the wearing of glasses ever after required.

If you have any signs of defective vision, let us examine your eyes. We will tell you their true condition!

"Made in Florida" sweet potatoes and cane syrup seem more plentiful in the Gainesville market this season than for several years, which serves as conclusive evidence that the farmers of this section made an abundance for home consumption and "some to spare" during 1908.

Mock orange trees have been transplanted on the south side of the court house. This is an evergreen and makes a fine shade tree, as well as one of the best of hedges. The best way to grow one of these hedges is by planting seed, which can be gathered by the bushel in the hammocks.

Should Congressman Clark's bill proposing the erection by the Government of postoffice buildings in all towns of from one to five thousand inhabitants become a law, the tremendous sum paid annually for rent would be saved. To erect these buildings it is proposed to issue $20,000,000 of 3 per cent bonds, running for thirty years.

Temperance in Canada has not made the same advance it has in many of our States, but that it is making steady progress is seen from the temperance victories recently gained in Ontario under the local option law. Thirty-five years ago the population of that province was about 1,650,000 and the number of saloons was 6,000. Today the population is about 2,200,000, but the number of saloons has decreased to 2,474.

It is good to see so many of our governors in their messages to the legislatures making the need of better laws for safeguarding the life of the worker so prominent. The enormous number accidentally killed and wounded in our mines, factories and on our railroads is a scandal and indicates that human life is held too cheap. Statistics show that peaceful employment in some industries is more dangerous than facing an enemy's bullets.

A woman traveled all the way from New York City to visit friends in Hamilton, Ontario. On reaching Niagara Falls she found that owing to the Canadian restrictions of the cattle embargo she would be unable to take into that country her pet Angora cat which had accompanied her. Sooner than part with it she returned to New York without proceeding to Hamilton. One may imagine the feelings of her Canadian friends on learning that the company of the cat was preferred to theirs.

The Florida prohibitionists need not count upon getting a law enacted by the next Legislature similar to that recently passed in Tennessee. Governor Gilchrist was elected upon a local option, or home rule platform, and should the Legislature pass such a bill he would certainly veto the measure. Unlike Tennessee it requires a two-thirds vote to pass a law over the Governor's veto in Florida, and there are several members of the Legislature who will vote for an amendment to the constitution submitting the question to the people who will not support such a radical measure as the new Tennessee law.

EDITOR HARRIS' TRIP.

Hon. Frank Harris, editor of The Ocala Daily Banner, recently returned from a trip to Key West. After referring to Jacksonville's phenomenal progress he continues his write-up of his trip as follows:

"Though the oldest city in the western world, St. Augustine, as it is today, is the creation of Mr. Flagler. Much of the prettiest portion of it he redeemed from the sea.

"When he first beheld it—its narrow streets and quaint buildings, its old fort and city gates—his wonderful intuition instantly told him that it would make an ideal tourist retreat, and in the formulation of his plans to this end the Ponce de Leon, the Alcazar and the Cordova hotels were mere evolutions of the wonderful intellect that made the East Coast the Appian Way and the rendezvous of the tourist travel of the United States.

"Fashion empties itself on St. Augustine and the whirl of society in winter begins and ends there.

"For many years yet to come it will be the tourist Mecca, and more and more so after the completion of the Key West extension and the Panama canal.

"The hotels of St. Augustine are noted for their elegance, grandeur and beauty of design, and when the season is at its height no lovelier vision is allotted to man than to behold the crowds of well dresed men and handsomely gowned women that make their homes under the roofs of these luxurious abodes.

"It is said that no scene of earth is more brilliant than a ball at the Ponce de Leon. The innumerable colored electric jets, issuing from crystal globes and golden candelabra, emeralds, rubies, opals, pearls, sapphires, diamonds, glinting from the bosoms and brows of the fair participants, add lustre to the scene and make it a picture rivalling the courts of royalty.

"As you travel on down the peninsular the scenery becomes more beautiful and tropical in appearance and the atmosphere more soothing and delightful.

"We met a German gentleman who said that he had traveled in Italy, Sicily, France and Spain, yet nowhere is there such a climate as there is on the southern East Coast of Florida, and that it is compelled to attract the tourist travel of both hemispheres.

"At Palm Beach, between Lake Worth and the ocean, Mr. Flagler has erected the largest hotel in the world, and as everything conspires to make this spot a jewel in beauty, he has made it his home and spends most of the winter months there. Whitehall, his residence, is a luxurious palace, and the grounds which adjoin those of the Royal Poinciana and the Breakers contain every rare plant and flower that will thrive in the tropics, and it is, indeed, a fairy land.

"At Ormond, Miami, Nassau and at Knight's Key Mr. Flagler has built his system of hotels that has now become famous all over the world. The most colossal ones are yet to be constructed, one at Key West and the other in Havana. When these two shall have been finished he will then have an even dozen, and they are without a parallel in the world's records. When it is stated that the opening of these hotels alone costs $250,000 some idea of their grandeur can be ascertained.

"When Mr. Flagler first entered upon his work of development and began the erection of his hotels and the construction of his railroad they were referred to as 'Flagler's folly,' yet while still in their infancy, they are paying dividends on their investment, and the earning capacity of the road is but eighty dollars less per mile than the Atlantic Coast Line, one of the oldest established lines in the State. What will it be when the extension to Key West is completed and it becomes the feeder for Panama canal?

"Old-timers held up their hands in horror when it was proposed to bring the pine lands along this route into cultivation and proclaimed that they would not sprout cow peas, yet they now present a vision of the finest pineapple farms that can be found anywhere, outstripping in size and quality the far-famed pineapples of Cuba.

"The construction of the Florida East Coast railway has given a new birth to the tomato and has made it indeed the king of vegetables, and its limitations have not yet been reached. There is one tomato farm on this route containing one thousand acres, and the growing of tomatoes has made fortunes for many who had the nerve to take advantage of the early opportunities that the building of this road afforded.

"The orange, the lemon and the lime thrive well in that region, but it seems to be particularly adapted to the cultivation of the grapefruit. The yield is large and the fruit bright and luscious, and is without spot or blemish.

"It seems almost miraculous, and yet it is true, that holes in the rock have to be dynamited to plant the young trees, yet they grow to perfection and stand the drouth better than the trees planted in a sandy or loamy soil.

"From Knight's Key to Key West the distance is forty-five miles, and eighty per cent of the unfinished portion of the road is already completed, and as the contractors are now more familiar with the work the remainder of the construction is regarded as an easy proposition, and in less than two years this mighty project will have been completed.

"The people of the Island City are looking with longing eyes to the time when they will hear the whistle of the first locomotive, and no victorious military chieftain will be covered with greator honors than will the projector of this great enterprise. He will be decorated with laurels and the people there will rise up as one man and call him blessed.

"They have felt all along as though they have been cut off from the world and formed a part and parcel to themselves, having no kinship with the balance of the State or nation. They will then feel that they are bone of its bone and flesh of its flesh, and will be in touch with its pulse beats.

"Already big things are in anticipation and big cigar plants are being established. Among the most famous are those of the Ruy Lopez company, the Havana-American, the Cortez company, the E. H. Gatto Cigar company, the Ferdinand Hirsch company, and the Key Westers say that the 'Island City' will be the largest cigar manufacturing market in the world.

"The building of the Florida East Coast railway, joining Key West to the main land, opens up untold possibilities.

"In the language of Governor Bloxham, 'the mind halts at their contemplation.'"

The people of Alachua county should make preparations to give a county fair in Gainesville early next fall which will show to the world the products of the best county in the State. The exhibit of Marion county a few weeks ago was especially good, but the farmers and stock raisers of Alachua county can surpass it if they will but make the effort. Now is the time to begin preparations for the fair next fall.

LINEN SHOWER.

Reception in Honor of Miss Jolly by Mrs. Chas. Marks.

WALDO, Fla., Jan. 30.—One of the loveliest affairs that has ever been given in Waldo was a linen shower given by Mrs. Chas. Alfred Marks at her home Thursday for Miss Ethel Jolly, who is to be married to Mr. William B. Harvard on next Thursday.

Invitations were issued to only the intimate friends of the bride-elect. In the receiving line were Mrs. Chas. Alfred Marks, Miss Ethel Jolly, Miss Ira Sisk, a guest of Mrs. Marks, and Mrs. Andrew Jolly. The bride-elect was charming in an old rose gown with embroidered net.

The linen was showered from a beautiful wedding bell and the ribbons pulled by Charles Alfred Marks, Jr., and although a baby he has proven himself an excellent entertainer.

The sitting-room was artistically decorated in palms, ferns and cut flowers, the color scheme in the dining-room being green and yellow of yellow jassimine and ferns. Dainty and delicious refreshments were served by Misses Emma Entenza and Ethel Boring. Many lovely pieces of linen were received, showing how much Miss Jolly is loved and admired in Waldo.

ACCIDENTAL KILLING AT HIGH SPRINGS

OVER A GAME OF MARBLES BETWEEN NEGRO BOYS.

Will McCaslin Threw Iron Bolt at Cleve Edwards, Striking Him Back of Ear, With Fatal Result.

(By Mrs. I. Ware.)

HIGH SPRINGS, Jan. 30.—An accidental killing occurred at the shops Thursday under the following circumstances: Two negro boys, 17 or 18 years of age, named Will McCaslin and Cleve Edmonds, got into a quarrel over a game of marbles and came to blows. Will McCaslin stepped back, picked up a small iron bolt, and threw it at Cleve with no intention of killing him, but it struck a vital spot behind the ear, breaking his neck and killing him instantly. The murderer ran off in a panic of fright and has not been apprehended as yet.

R. B. Bush has concluded all arrangements for moving, and left Friday for Atlanta, where he will locate. He sold his grocery business to Mrs. Hammock, the widowed daughter of Rev. G. E. Thompson, and his home to Mrs. Daisy Dow. Mr. Bush came to High Springs from Atlanta several years ago and married Miss Ione Dupuis, daughter of Judge Dupuis, of this county. They have lived here ever since and have many friends who deeply regret their departure.

W. P. Maples, who bought out the Summers livery stable recently, has moved his family to this place. His wife is a sister of S. B. Phifer and visited High Springs while a young lady. They will be welcomed by church and social circles.

M. Butler, son-in-law of the late J. S. Irvin, who was a resident of High Springs, has moved to this place from Lake City. He and his family will be a pleasant acquisition to this community.

Mrs. Modes Mathers and daughter, Mrs. H. H. Simpson of Micanopy, are visiting Mrs. M. P. Summers. Her many friends will be glad to know that Mrs. Summers is recovering from her long spell of illness.

P. P. Wood of Tampa is in town this week visiting his family.

Typhoid fever has made its dreaded appearance in town again, and has already claimed one victim, little Johnnie LeCount. His sister, Helen, is suffering with it in Waycross, where she went to attend the burial of her brother. Lester Barnes, the small son of Mr. and Mrs. Barnes, ticket agent for the A. C. L., is also suffering from this fever, and Cora, the little daughter of Mr. and Mrs. C. C. Harwell, is critically ill with it.

Dr. Tanner, who moved to Savannah from High Springs last year, has returned and says that the opportunities for making money are better here than in Georgia.

AUCTION SALE OF LOTS.

Worthington Springs Building Lots Now Being Offered.

By reference to the advertisement which appears elsewhere in today's Sun it will be seen that the Southern Realty and Auction Co. will place several desirable building lots at auction on next Wedneday.

The firm have secured a band and will also give away handsome souvenirs to all parties that attend the sale, besides the railroad fare will be refunded to all who purchase a lot.

Considering the rapid growth and future bright prospects of Worthington it would be well for all to read the ad, and investigate what they will offer.

MORRISTON HAS SEVERE WIND STORM

TERRIFIC WIND ALL ALONG THAT SECTION WEDNESDAY.

Many Telephone and Telegraph Poles Down and Wires Put Out of Business.

From Saturday's Daily Sun:

The telephone and telegraph companies south of this city suffered heavily Friday as a result of the severe wind storm which began early and lasted the whole of the day.

In the vicinity of Gainesville the wind was blowing at the rate of about forty miles an hour, but at no time did it do any damage to property or the wires.

Near Morriston, and in fact from Archer south to Dunnellon, as far as heard from, the wind was more severe, and many telegraph and telephone poles have been put out of business, and it is said around Morriston many trees were felled to the ground, being blown up by the roots.

It was reported from Dunnellon that the wind was extremely severe there, several houses being blown down, but through the courtesy of Mr. Voyle we can deny this report, as that company at once put a large force at work on their lines and had them working as far south as Dunnellon last night.

The damage to the telegraph and telephone people seems to run up considerable, but outside of this nothing serious is thought to have occurred.

Rain fell at intervals during the day, which was highly appreciated by the farming class of people, as it is expected that much good will result from the showers.

Many are of the opinion that we will have cold weather following the rain, but the weather man's indications Friday were: "Partly cloudy and colder Saturday," which does not signify anything unusual in the line of a cold snap.

JUDSON ITEMS.

JUDSON, Jan. 28.—After a great many changes and moving around everybody have settled down to work plowing and fixing lands for another crop. J. F. Stockman of Trenton has rented Mrs. Carter's house here and has moved into it; C. H. Baggiey has rented and moved to the Ira Carter place; John Quincey has moved to the Brown place; Doc Thomas of Dutton and his mother are going to farm with J. H. Johnson. G. A. Perryman has moved to the Hussey place; J. J. Palmer moved away from there to High Springs to work with his father, J. J. Palmer, Sr.

Dr. Ramond Sanchez has taken himself a wife, a daughter of C. W. McElroy, and the couple are living with his parents, Mr. and Mrs. A. B. Sanchez.

The dry weather prevailing here has caused wells and ponds to go dry. The lands are getting hard to break, and gardens are dying for want of rain.

James Coleman and his son-in-law, J. E. Adams, were here trading yesterday.

Sheriff Land of Lafayette county was here Saturday on official business.

G. A. Perryman is having a log-rolling today.

SEES HOPE VANISH WITH BITTER OATH

ATLANTA, Ga., Jan. 29.—Five years ago a man named William Cox was brought to the Federal penitentiary here to begin a term of imprisonment for forgery of money orders. He was regarded as an obdurate criminal. The guards said he was a bad sort. They had seen his kind before. He was the sort of man, they said, who believed he no longer had a chance, and no longer cared what came.

But he had a few books of the right kind thrown in his way: One Sunday the chaplain had a talk with him. From then on the man was changed. He had before been sullen and morose and the guards had kept a careful eye on him. He became a model prisoner. There was hope in his expression, in his carriage. His expression became bright, there was a smile on his lips.

The books and the chaplain had showed him that he still had a chance. He had put the past behind him. He turned his eyes wholly to the future. He was a skillful workman and he worked hard. He gained every day in efficiency. Everyone encouraged him. The prospect was that when his sentence was concluded he could earn an excellent salary and live a very useful life.

His whole thought was centered on the day he would be free. He dreamed of that. It was his one great goal. Life would begin again then. He talked of it to the guards when he was permitted to talk, he whispered of it to his fellow-prisoners. It was the one day. Monday it came. He started from the prison a free man, and on the outside he was re-arrested.

"To H— With Everything."

He was taken to the United States court and an order was given remanding him to Columbus, Tenn., where he will be tried on another charge of forgery of money orders. He had thought that all of these charges had been grouped together, and that he had been sentenced for all. But he was mistaken. He will probably be re-sentenced in Columbus, and as soon as he has completed that term of imprisonment will be tried again at Savannah, Ga.

Wednesday morning he was taken back to Columbus by a United States marshal. As he stood with his hands handcuffed, waiting to be taken to the train, his face quivered, tears came into his eyes.

"To hell with everything and everybody," he said.

WORTHINGTON TO GET ANOTHER DAILY TRAIN

WILL BE RUN FROM AS FAR SOUTH AS OCALA.

Interested Parties Have Been Working for This Service for Many Months as Experiment.

For many months interested parties have been quietly at work to get another train put on between Gainesville and Worthington Springs, and it now seems as if their efforts will be rewarded.

It is proposed to run this new train from Ocala to Worthington, making the round trip every day, that tourists and the citizens generally could spend the day there and return to their homes every evening, and at the same time have a pleasant day at the Springs.

This new arrangement would probably prove pleasing to the Northern people here, as they could spend the day there and return in the evening. Besides, in the summer it would catch much of the trade from this point that has heretofore gone out of the State for recreation purposes.

In speaking of the proposed new service, a railroad man Friday informed The Sun reporter that the train would probably be put on within a very short time, and would first be tried as an experiment before it was made permanent.

The people of White Springs are rejoicing over the news received from Representative Frank Clark that a resolution had passed Congress authorizing a survey of the Suwannee river from White Springs to the Gulf, with a view to determining the deepest feasible channel that can be obtained for the distance named, and to report a project therefor and an estimate of the cost. This is a move that means much to the future welfare of that place. An outlet to the Gulf would increase the popularity of the resort 100 per cent and would result in a corresponding increase in business. The people of that place should show their appreciation of a move of this kind and co-operate fully in the undertaking.

SOIL PREPARATION

By JOHN M. SCOTT

—The Florida Agricultural Experiment Station—

A thorough preparation of the soil is necessary to produce the largest crop of any kind. Whatever crop is to be grown, the main point is to get the soil in the best possible condition for a good seed-bed. Such preparation retains the soil moisture, and puts the soil into the proper physical condition for the growth of roots. The thorough preparation of the seed-bed reduces the cost of cultivation during the growth of the crop by at least one-half.

EARLY PLOWING.

During the spring planting season the ground is usually dry. The past two seasons, for instance, have been too dry for good germination, excepting where the land was prepared early. Hence it is necessary to till the soil early so as to retain a large percentage of the moisture which was received during the fall and winter. A large amount of moisture can be kept in the soil for a considerable time by proper preparation and later cultivation. We should plow early in the winter (say, in January), and if there is much grass or weed on the ground the plowing should be deep enough to bury everything out of sight.

THE SOIL MULCH.

As soon as the land is plowed it should be harrowed thoroughly, and again harrowed at intervals of about ten days or two weeks until the crop is planted. Just when the harrowing should be done will depend on the weather, but the field should be harrowed often enough to retain a good soil mulch; that is, the surface of the soil, to the depth of one or two inches, should be kept thoroughly pulverized. This will prevent a large part of the moisture from evaporating and being lost before the crop is planted. It is especially important to run the harrow over the ground after every rain. This breaks the slight surface crust that is apt to form, and prevents the loss of moisture to the air. In the dry spring of last year, we were able, by this method, to retain sufficient moisture in the soil to germinate cotton, corn, and velvet bean seed. This surface cultivation should be continued even after plowing. The correct agricultural practice is to plow deep when preparing the seed-bed, and give shallow cultivation during the growth of the crop.

Our best farmers have learned from experience that it is better to plow up the whole field; for listing between the old rows and leaving the middles to be broken out later puts the land in the worst possible shape for retaining the moisture which is already there, and also, for absorbing any rain that may fall.

PREVENTING WASTE OF FERTILIZER.

It is well-known that we often lose from 50 to 75 per cent. of the value of the fertilizer by not having the soil in proper condition at the time of planting. By thorough preparation of the soil we not only save a large part of the fertilizer we apply each year, but at the same time we bring about such conditions as tend to hasten plant growth. We also increase the water-holding capacity of the soil by adding organic material to it, through plowing under the remains of plants left on the land by the previous crop. A soil may contain enough available plant food to produce a heavy crop, but may be so wanting in humus that it cannot hold moisture enough to germinate the seed well, or to make a satisfactory growth of the crop.

THE ADVANTAGES OF EARLY PLOWING.

When the land is prepared early in the season more time is given for the raw soil to weather, and for all trash and weeds plowed under to decay. A better seed-bed is insured; for more time can be given to the work, and the soil also has time to settle and become firm enough to establish capillarity between the subsoil and the plowed soil, so as to insure sufficient moisture in the seed-bed for germination and to tide the growing crop over a long dry period.

SPEECH OF WILLETT IS ORDERED EXPUNGED

Special Committee Says That It is House's Duty to Protect President From Personal Abuse.

WASHINGTON, D. C., Jan. 28.—Recommending that the speech delivered in the House last week by Representative Willett of New York, in which the President was severely criticised, be expunged from The Congressional Record, the select committee appointed to consider the speech submitted its report to the House. A letter written to the committee by Representative Willett, urging that his speech should remain on record, accompanied the report.

Declaring that "the consideration of the speech in question involves a consideration of what is and what is not orderly debate in the House," the committee's report defines the privileges of members of the House and limitations of debate. It discusses at length the relationship of the two houses of Congress and the relations which must be maintained between the House or Representatives and the President, in accordance with the constitution.

The report declares that it would seem that the "peculiar constitutional duties of the House in relation to the power of impeaching the President do not preclude a clear line of distinction between that criticism of acts and conduct necessary for performance of the constitutional duties of the House and a criticism merely personal and irritating."

It also claims that it is especially the duty of the House itself to protect the President "from that personal abuse, innuendo or ridicule tending to excite disorder in the house itself and to create a personal antagonism on the part of the President toward the House, and which is not related to the power of the House under the constitution to examine into the acts and conduct of the President.

"Your committee has carefully considered the remarks of the gentleman from New York," continues the report, "and find that his remarks concerning the President are not justified by any consideration of the constitutional duties or powers of the House; that they transcend proper limits or criticism in debate; that they are destructive of that courtesy, respect and dignity which ought to be preserved, and that they ought not to remain in the permanent official record of the proceedings in the House."

The committee claimed that it was impossible to separate the objectionable remarks from the remainder of the speech, and that the only way to eliminate the remarks considered out of order would be to strike out the entire speech. It cited as a precedent for such action by the House the speech of Robert P. Kennedy, of Ohio, attacking the Senate, made in the House on September 3, 1890, which was excluded from the permanent record.

Willett Sends Letter.

In his letter to the committee Mr. Willett claims that he did not transcend the rules of the House, but that he was entirely within his rights to make the speech under the order of general debate. "Freedom of speech has always been held so sacred," he declared, "that the utmost latitude has been allowed in debate, and I respectfully submit that to strike my speech from the record in this instance will establish a precedent extremely dangerous."

The resolution recommended by the special committee for adoption of the House reads:

"Resolved, That the speech of Mr. Willett printed in the daily Congressional Record of January 18, 1909, contains language improper and in violation of the privileges of debates, and that the same be stricken from the permanent record."

S.S.S. RIDS THE SYSTEM OF CATARRH

Catarrh is a blood disease which causes a general inflammation of the inner linings or mucous membranes of the body. The diseasing of these delicate surfaces and tissues produces all the well known symptoms of the trouble, such as ringing noises in the head and ears, tight, stuffy feeling in the nose, pains above the eyes, irritation of the throat, sometimes slight fever, and a general feeling of weakness and ill health. Even the lungs become affected by the continual passage of impure blood through them, and there is danger of consumption if the disease is allowed to remain in the system. S. S. S. cures Catarrh because it purifies the blood. It goes into the circulation and removes every particle of the catarrhal matter, making this vital fluid pure, rich and healthy. Then the inflamed membranes begin to heal, every symptom disappears, the constitution is built up and health restored. S. S. S. rids the system of catarrh by attacking the trouble at its head and entirely removing the cause from the blood, thus making a permanent and lasting cure. S. S. S. is made entirely from health-giving roots, herbs and barks, and for this reason is an especially safe and desirable medicine. Book on Catarrh and any medical advice free to all who write.

A Boy's Tragic Death; The Suicide of Woman

TAMPA, Jan. 28.—A most deplorable accident happened on one of Tampa's business thoroughfares yesterday, which resulted in the death of a youth by the name of Parola Parlay, a delivery boy for the O. Falk & Co. dry goods house, and the sole support of his mother and two smaller children. The boy was riding a bicycle on his way to deliver a package to one of the city's boats for the firm he is employed by, when he ran into a horse driven by Mr. Frank Russell, manager of the Economical Drug Store, throwing him heavily to the ground and knocking him unconscious. Mr. Russell jumped from his vehicle, and picking the insensible boy up conveyed him to Dr. Grantham, when it was discovered that intestinal injuries of a most serious character had resulted. The boy was then conveyed to the Emergency Hospital, where he died four hours after the accident occurred. Mr. Russell, though not at all to blame for the boy's colliding with his horse, was greatly shocked and sorrowed by the accident, and generously offered to pay all attentions to the lad and his entire funeral expenses. The mother is frantic over the death of her 15-year-old boy, who industriously worked to support her and his little brother and sister, their father having some time ago deserted his family and left them in destitute circumstances.

Committed Suicide.

Yesterday at 10:30 o'clock a handsome woman known here as Trixie Brown, died from a dose of laudanum which she took Monday night at the house of Mabel Fuller, where she has been living for some time. It is said the drug was taken immediately after a quarrel she had with a man, who is here to run some of the novelty features on the State Fair Range. Brown is said to be an assumed name. The girl, who was very handsome, is said to be of an excellent family, well-known in Atlanta. Her relatives in that city have been communicated with, but up to this time no word has come from them, and the unfortunate woman will probably be buried here.

TALLAHASSEE, Jan. 28.—According to the requirements of paragraph 2, section 46, page 19, of the digest of school laws of Florida, Hon. W. M. Holloway, State Superintendent of Public Instruction, will call a convention of county superintendents, high school principals, and others who may be interested in the cause of education to meet at Lake City March 16-18.

Heretofore these conventions have been held at the capital in April, during the session of the Legislature, but Mr. Holloway has decided that an earlier date is desirable on account of the short length of time at the disposal of those whose duty it is to formulate the ideas and suggestions gained at these conventions into bills to be enacted into laws by the Legislature then convened. Usually by the time the bills are ready the Legislature is in its last days of rush and confusion, a state not conducive to a quiet consideration of important measures; so, in order to avoid having matters pertaining to the schools passed over or given but scant and unsatisfactory consideration, Mr. Holloway intends that this time everything shall be in readiness before the 6th of April, 1909.

It is of the most vital importance that the coming Legislature shall recognize existing school conditions and bring the State out of the chaos produced by the recent supreme court decision.

Saw Juror Sober Once In Twenty-five Years

NASHVILLE, Tenn., Jan. 29.—With the jury numbering two less than it did five days ago, the ninth day of the trial of Col. Duncan B. Cooper, Robin Cooper and John D. Sharpe, accused of the murder of former Senator E. W. Carmack, ended yesterday with every prospect of a further depletion. The court excused Jurors Leigh and Jackson charged with drunkenness and bias today, and intimated that Juror Whitworth would be excused tomorrow. The latter has been ill for several months and two physicians have signed certificates that if he remains in the box his life may be forfeited.

The State opposed Whitworth's release and the court ordered the physicians summoned to testify. They will appear today, as will also the new venire of 500 men, and an effort will be made to get from them the balance of the jury.

Following Juror Leigh's release from the box he was arrested on a charge of perjury and released on $1,500 bond to answer before the grand jury.

Juror Leigh's case was first disposed of without argument by the attorneys. The court said:

"I have given the case careful consideration, weighing the testimony for and against the juror. The charge of drunkenness is controverted, but it is evident that the juror is biased and as such the retaining of him would make the jury a prejudiced one. Therefore I excuse Mr. Leigh from service."

The defense served notice that it would ask the court to dismiss the eight men left on the jury on the ground that the dismissal of Leigh had prejudiced the others against the defendants. The formal motion to this effect will be filed later. The first witness against Juror Jackson swore that the juror, who is a blacksmith, would put a shoe or two on a horse, collect for the work and go three miles to a station for a drink before he would finish the job.

Squire Lewis, who has lived near Jackson for twenty-five years, saw sim sober once in the twenty-five years.

At this point the defense admitted that Jackson was unfit and consented to his dismissal.

Before further examination of talesmen, the case of Juror Whitworth will be disposed of by the court.
